BOOK SPOTLIGHT

When Clary Fray heads out to the Pandemonium Club in New York City, she hardly expects to witness a murder - much less a murder committed by three teenagers covered with tattoos and using crazy weapons. Then the body disappears, with nothing to show that someone died. This is how Clary meets the Shadowhunters, warriors that rid the earth of demons. This is when she meets Jace, a Shadowhunter who looks like an angel and acts like a jerk. Clary is pulled into Jace's world when her mother disappears and Clary is attacked by a demon. Why would demons be interested in humans like Clary and her mother? How did Clary get the Sight? I like this book because the story keeps you interested with descriptive dialogue, a good story, and amazing fight scenes. It's also one of those series where every book is just as good as the first, which is hard to find.
