

JANUARY 2021

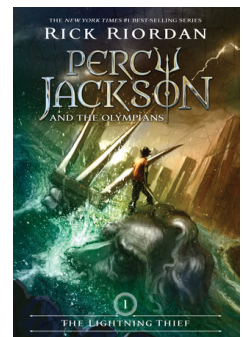

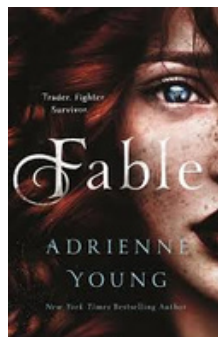

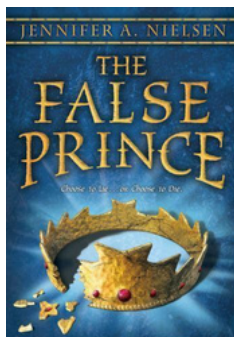

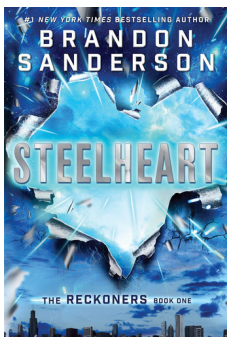

The DIAMONDBACK Gazette

GENRE OF THE MONTH

ACTION / ADVENTURE

The action/adventure genre can include many different sub-genres. It is any book that'll keep you awake at night wondering how the story will end. You can tell you're reading this type of book because you can't put it down before finding out how the main character survives! Action stories will have action. (Really? I didn't know). Usually these stories will move quickly between dilemmas and fights leading up to one massive battle between the protagonist and antagonist(s).

BOOK SPOTLIGHT

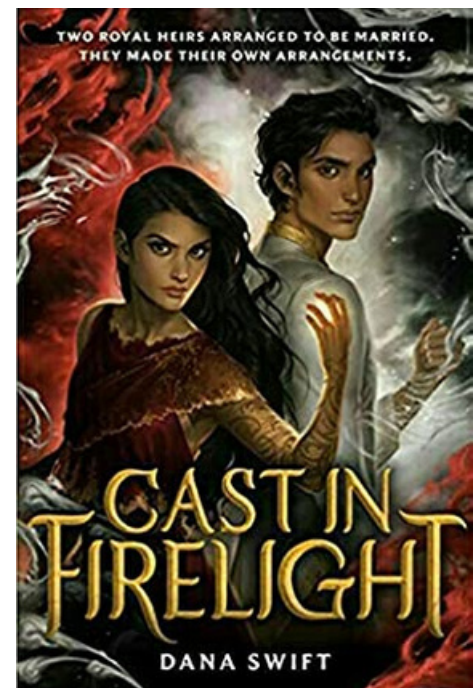

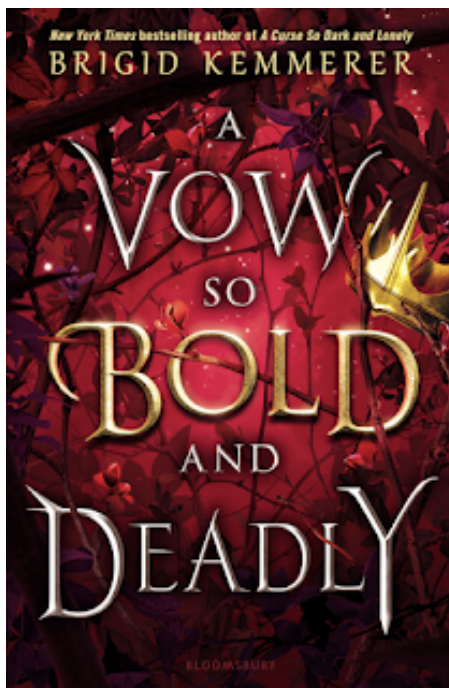

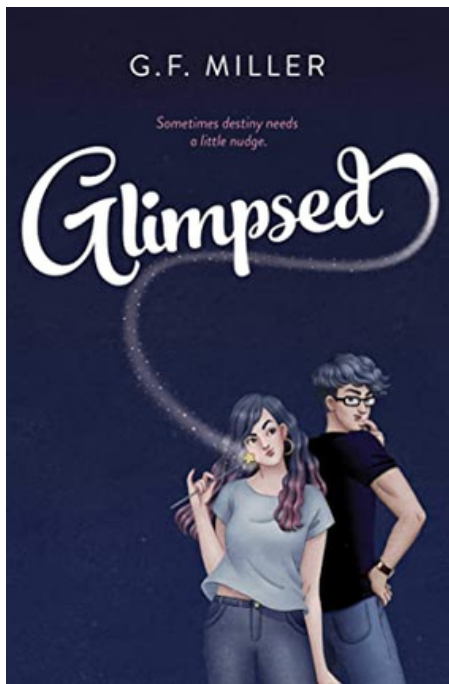

Michael Vey:

To everyone at Meridian High School, fourteen-year-old Michael Vey is nothing special, just the kid who has Tourette's Syndrome. But little do they know, Michael is extremely special. He has electric powers. Michael thinks he is unique until he discovers that a cheerleader named Taylor who has the same mysterious powers. Michael Vey is the protagonist of the series. He is a scrawny teenager with Tourette's syndrome who is constantly bullied by his peers. Michael is a Glow, one of a few people who has electrical-based powers. His abilities allow him to pulse with electric energy, shocking people like an electric eel. I like it because it has many plot twists, and I like that they have electric powers.
